

Sub-catchment	Project	Action	Details	Partners
Rother	WFD implementation scheme	WWTW improvement	WWTW improvement to meet tighter ammonia standard on consented discharge (1 site)	SW, EA
Arun	WFD implementation scheme	WWTW improvement	WWTW improvement to meet tighter BOD standard on consented discharge (2 sites)	SW, EA
Arun and Rother	WFD implementation scheme	WWTW improvement	WWTW improvement to meet tighter P standard on consented discharge (18 sites)	SW, EA
Arun	WFD no deterioration scheme	WWTW improvement	Improvement to prevent deterioration in WQ relating to ammonia (3 sites)	SW, EA
Arun and Rother	WFD no deterioration scheme	WWTW improvement	Improvement to prevent deterioration in WQ relating to Phosphorus (1 site)	SW, EA
Arun	WFD no deterioration scheme	WWTW improvement	Improvement to prevent deterioration in WQ relating to chemicals (1 permit)	SW, EA
Arun and Rother	Monitoring intermittent discharges	Install monitoring	Install monitoring of intermittent (CSO/Storm tank) discharges (11 sites)	SW, EA
Arun	Monitoring at WWTW	Install monitoring	Install FFT (flow to full treatment) monitoring at treatment works (1 site)	SW, EA
Arun and Rother	Monitoring and investigation	Investigation	Monitoring and investigation of chemicals in wastewater treatment process (Monitoring programme and 5 sub-categories of investigation)	SW, EA
Arun and Rother	CSMG investigation at Burton Mill Pond	Investigation	Investigation into the contribution of water company assets to non-compliance with water quality rCSMG long term targets, and an options appraisal of how to achieve these targets.	SW, EA, NE
Rother	UPM investigation	Investigation	Undertake an Urban Pollution Management (UPM) investigation for in-river WFD failures, and options to deliver improvements	SW, EA
