A photograph of a forest floor in spring. The ground is covered with a dense carpet of bluebells and other green plants. Several trees with thin trunks are visible, some with moss on their bark. The background is filled with more trees and foliage, creating a lush green environment. Sunlight filters through the trees, creating dappled light on the ground.

•General land  
management advice

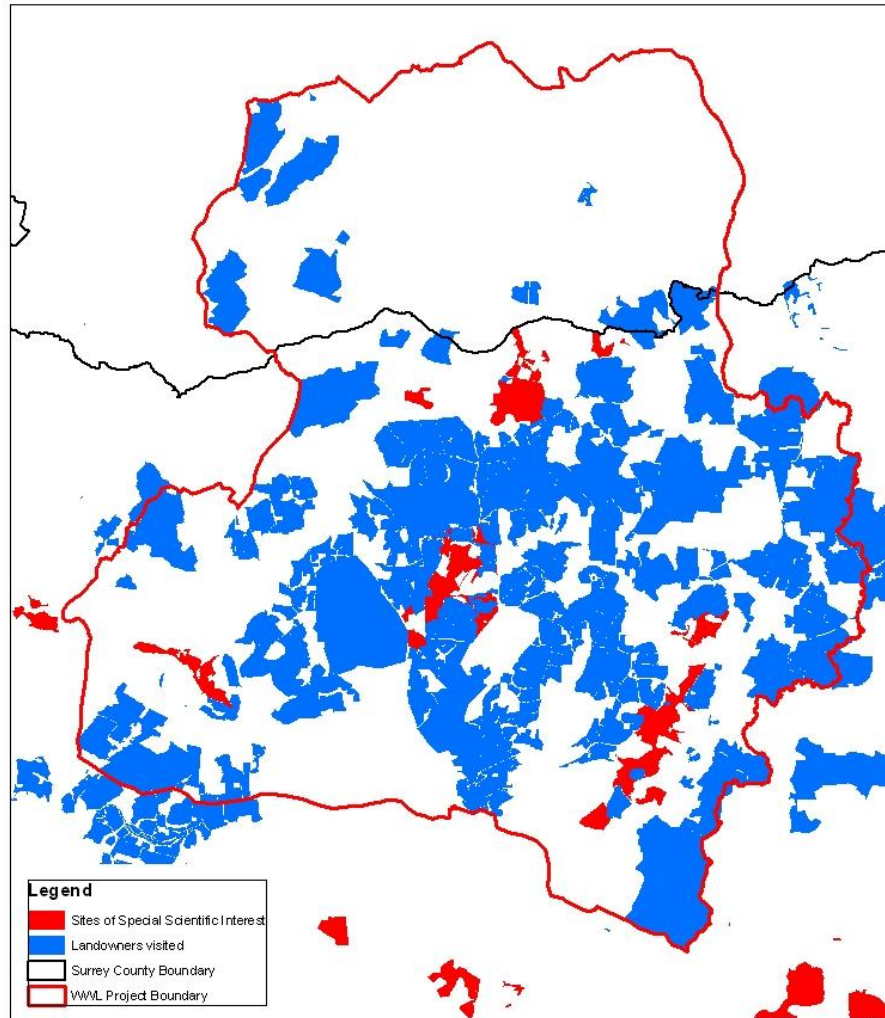

- 
- A photograph of a woodland scene. The foreground is covered in a thick layer of brown, fallen leaves. In the middle ground, there is a dense thicket of green bushes and shrubs. Behind this, several tall, slender trees with bare, dark branches stand against a pale, overcast sky. The overall atmosphere is quiet and somewhat somber due to the lack of foliage on the trees.
- Land registration on Rural Land Register
  - Writing FC-approved Woodland Management Plans
  - Applying for grants and felling licences

A photograph of a dense forest with many tall, thin trees. The ground is covered with green ferns and fallen branches. The lighting is bright, suggesting a sunny day.

- PAWS restoration

- Sustainable programme of woodfuel production
